

The Clifford Soergel Memorial Outreach Garden is roughly one-third of an acre and is located within the much larger Kubecka Community Garden. The Soergel Garden is managed by the Town's Department of EWM and maintained by the Department of General Services in conjunction with volunteer gardeners from the site.

The Soergel Garden is a memorial to Clifford Soergel a long-time Kubecka gardener at the site who established, maintained and managed this "garden within a garden" with the explicit mandate that the garden beds were free of charge, but half of the produce grown on each bed would be donated to local food banks to feed the needy.
