Pollinator Garden

Hopefully many of you have noticed all the hard work and effort your neighbors have put into the garden this year. There has really been a great improvement in the overall aesthetics of the garden from previous years! Thanks to Cornell Cooperative Master Gardeners Carolyn, Hope and Alexandra we now have a beautiful pollinator garden!

Perennial Donations Wanted!

Another big thanks to Dave for the approximate 100 ft long flower garden inside the front entrance of the garden! Dave is asking for any donation of flowers, especially perennials, that you may want to thin out of your flower beds. Donations can either be placed at the right end of the flower garden (look to the left upon entering the garden), or Dave can be contacted by email, davidcharlantoni@aol.com or by text message at 631-504-7435.

Bench Donation

Come enjoy a seat in the shade on this lovely bench donated by the Harborfields Library! "Never be afraid to sit awhile and think."- Lorraine Hansberry. This Trex high composite outdoor bench is one of many that can be donated to the Town of Huntington through our NexTrex plastic film recycling challenge. See the Town website for more info on how you can get involved: www.huntington.ny.gov/PlasticFilmRecycling

Thank you to all Soergel Garden members and others for your donation of over 740 lbs. of produce to local food pantries!

Big Thanks!
